

DEPARTMENT OF MUSIC AND PERFORMING ARTS PROFESSIONS
Program in Drama Therapy

June 21, 2018

To Whom It May Concern:

Avi Hadari is a brilliant educator and therapist, storyteller and musician. He is a legend in his native Israel where he has mentored scores of theatre artists, educators and therapists, all of whom regard him with the greatest respect. He has combined his deep study of gestalt therapy and expressive therapy to pioneer the profession of drama therapy and story-telling in Israel and indeed throughout the world. His work with music as a form of creative expression and healing is powerful and transformational. I have witnessed him spin his musical magic within groups and can personally attest to his ability to guide people into a liminal space where all expression is possible and all possibilities of change are ready to go.

A handwritten signature in black ink, appearing to read 'R. Landy', is centered on the page.

Robert J. Landy, Ph.D., RDT/BCT, LCAT
Professor of Educational Theatre and Applied Psychology
Founding Director, Drama Therapy Program
